

CLASSIC FLAME INSERTS

Our Standard Fireplace Insert

The Classic Flame Inserts takes an energy efficient and environmentally friendly fireplace to the next level. Instead of replacing a regular incandescent light bulb every 2,000 hours, the LED's used in this insert have a life span of over 75,000 hours and only draw 11.2 watts as opposed to the 120 watts of power from an incandescent light bulb. With this efficiency, you are not only saving the environment, but you are saving your money!

Dimplex Customer Service

Phone: (888) 346-7539

*** The Dimplex units ship in boxes. You need to slide insert into front of mantle when you set it up.*

CURVESIDE WOOD PRODUCTS does not warranty the fireplace units themselves. This is done through the manufacturer. However we will help you obtain parts and service if needed. These units are of the highest quality and we stand by the products we sell.

IMPORTANT: Retail customer needs to receive owner's manual with respective unit. Please stress that electrical specifications and safety standards need to be followed.
